

Junior House Awards

2007 saw the introduction of a new Junior House Awards Programme which took the shape of badges. The badges were awarded across 4 disciplines. These were Academic, Culture, Sport and Participation. In order to be eligible for an award Y9 and 10 students had to be nominated by their form class teacher or house leaders.

The graduation report assisted with the academic award as well as STAR, ESA, PAT Listening and Paul Nation Vocabulary work. Culture centred around Kapa Haka, stage challenge, speeches, music, drama, art and languages. Sport featured commitment and attitude as well as ability from either one particular sport or a wide range. The participation award became the most highly sought after as it represented the all rounder who participated enthusiastically, fairly, intelligently and skilfully in a wide variety of events.

This week badges were presented by house leaders at Assembly. If a student is previously awarded a badge then they will be presented with a bar which can be attached to the existing badge. The full list of winners for the first half of the year follows and a photo list will be on the school website.
